

Online Physikerinnentagung 2020

Saturday, 7 November 2020

Talks from participants: Laser and Accelerators (de/engl) - Online (11:00 - 13:00)

-Conveners: Pardis Niknejadi

time	[id] title	presenter
11:00	[13] Ab initio study of high-order harmonics and isolated attosecond pulses from a solid target: Two-color pulse impacts	Dr NOURBAKHS, Zahra
11:30	[10] Sensitive detection of metastable NO and N ₂ by reactive collisions with laser-excited Li	Dr DULITZ, Katrin
12:00	[48] Surface evolution of Nb(100) during thermal and gas-treatments	Dr DANGWAL PANDEY, Arti
12:30	[53] Transverse phase space characterization of high brightness electron beams	AFTAB, Namra
