## **Writing across languages. Languages across writing. Exploring plurilingual writing development**

*Thursday 24 July 2025 14:45 (1 hour)*

Presentation in English with PPT in German/  
Présentation en anglais avec PPT en allemand/  
Vortrag auf Englisch mit PPT auf Deutsch

Writing is a complex skill that relies on various cognitive, metacognitive, and linguistic resources. Successful writers are able to coordinate and effectively use these resources during the writing process. In plurilingual contexts, students may develop writing skills in multiple languages, thereby expanding the resources at their disposal. In our presentation, we will address the questions of transversality and transfer of linguistic resources in plurilingual writing and discuss pedagogical approaches to enhancing plurilingual writing skills.
