Invenio RDM Instance Rodeo

Monday 24 March 2025 16:00 (1h 30m)

As part of the presentations on the first day and as a salute to the OR repository rodeo, we introduce the "Invenio-Instance-Rodeo". It is meant as a platform for partners to present their (preferably live, but also approaching launch) Invenio instances, show how they differ from vanilla instances, and discuss the challenges and solutions encountered. These presentations should be as short as possible (~5 Minutes) and feature at least one screenshot. We will only allow for brief questions, but there will be plenty of time during the workshop to discuss details.

Session Classification: Presentations
