Invenio RDM Members Meeting 2025

Report of Contributions

Contribution ID: **3**   Type: **not specified**

Partner Survey

Monday 24 March 2025 14:40 (20 minutes)

Presentation of Partner Survey results

Presenter: GONZALES, Sara

Session Classification: Presentations

Contribution ID: 4   Type: **not specified**

InvenioRDM: a year built together

Monday 24 March 2025 14:20 (20 minutes)

Welcome and state of the project.

Presenters: IOANNIDIS, Alex; TAROCCO, Nicola

Session Classification: Presentations

Contribution ID: **5** Type: **not specified**

Welcome from UHH/ZFDM

Monday 24 March 2025 13:00 (20 minutes)

Presenter: THIEMANN, Stefan (ZFDM)

Session Classification: Presentations

Contribution ID: **6**   Type: **not specified**

Bulk record & file import tool / UI Component

Monday 24 March 2025 15:00 (20 minutes)

GUI-based bulk importing and editing of records and files is a widely desired, highly useful feature, which will help to make the platform appealing to a much broader base of institutional users.

Presenter: MCCOLLOUGH, Aaron

Session Classification: Presentations

Contribution ID: **7** Type: **not specified**

External Previews

Monday 24 March 2025 15:20 (20 minutes)

We created a really low-level preview component the simply passes a link to certain files in a record to an external server that grabs the file and previews its contents. This opens up the possibility to let researchers provide their own previewing machanisms without having to maintain a lot of functionality inside Invenio.

Presenter: WÖRNER, Kai Joachim (Universität Hamburg)

Session Classification: Presentations

Contribution ID: **8**   Type: **not specified**

Invenio RDM Instance Rodeo

Monday 24 March 2025 16:00 (1h 30m)

As part of the presentations on the first day and as a salute to the OR repository rodeo, we introduce the "Invenio-Instance-Rodeo". It is meant as a platform for partners to present their (preferably live, but also approaching launch) Invenio instances, show how they differ from vanilla instances, and discuss the challenges and solutions encountered. These presentations should be as short as possible (~5 Minutes) and feature at least one screenshot. We will only allow for brief questions, but there will be plenty of time during the workshop to discuss details.

Session Classification: Presentations

Contribution ID: **9**   Type: **not specified**

Introduction Round

Monday 24 March 2025 13:20 (20 minutes)

Let everyone tell who he is and where he comes from

Session Classification: Presentations

Contribution ID: **10**   Type: **not specified**

Organizational Stuff

Monday 24 March 2025 13:40 (20 minutes)

What will be happening when and why?

Presenter: WÖRNER, Kai Joachim (Universität Hamburg)

Session Classification: Presentations
