Continuous Integration and Continuos Deployment at DESY

Wednesday 16 July 2025 14:25 (20 minutes)

Continuous Integration and Continuous Deployment is a modern Software Engineering best practice that enables efficient large scale software development and use. There are a variety of popular Ci/CD tools that help in adopting these practices. In this poster we focus on the kinds of software, their runtime environments,packaging and deployment tools and techniques used at DESY that can easily be leveraged by participating institutions under DAPHNE4NFDI.

I want to give a Lightning Talk

yes

Author: TIRUMALAI NALLAM CHAKRAVARTY, Parthasarathy (DESY)

Co-authors: Mr KHOKHRIAKOV, Igor (DESY); Ms HINZMANN, Regina (DESY)

Presenter: TIRUMALAI NALLAM CHAKRAVARTY, Parthasarathy (DESY)

Session Classification: Lightning Talks
