Reflect together on experiences from the CLICCS project: What has shaped us? What surprises, changes, or skills have we gained? What can we take forward for our future careers? What advice can we offer to the next generation? A small group starts the discussion in the inner circle – anyone can join at any time, share experiences, and contribute new perspectives.

3:00 – 3:30 PM | Coffee Break

3:30 – 5:00 PM | Short Workshops – Shaping the Future after CLICCS

Choose from three interactive workshops:

Workshop I: Next Step Sprint: Career Clarity in 90 Minutes

Take 90 minutes to step back, reflect on where you are now, explore possible paths, and pin down your concrete next career steps. Together with peers, you'll get fresh impulses, exchange ideas, and try out practical tools that make it easier to decide what's next – whether you're still exploring options or already have a direction in mind.

Workshop II: Vision Collage: Create Your Career Story

Create your own future collage with images, colors, and symbols. Design a creative vision of your personal and professional journey, share it with others, tell the story behind it, and gain new perspectives – turning your collage into an inspiring future story.

Workshop III: Bricks for Your Career Path

Discover your career path in a hands-on way with LEGO® Serious Play®. Using bricks and guided questions, you'll build models that represent your current career situation, possible future paths, and the steps you want to take next. Share your future career model with the group and reflect together on what it reveals.

5:00 – 5:30 PM | Coffee Break

5:30 – 6:30 PM | Career Paths after CLICCS – RealTalk Career: Alumni Insights
